

# Electric LED Fireplaces 2017

# Why Buy Electric?

## YEAR-ROUND ENJOYMENT

ClassicFlame electric fireplaces allow you to enjoy the glow and ambiance of a realistic fire all-year round, for 4 seasons of enjoyment. That's a feature unmatched in wood-burning, gas or gel fireplaces.

## NO FIREWOOD NEEDED

That means no more chopping and storing wood, worrying about having enough supply to last through winter, or spending hard earned money to purchase more.

So leave the logging to lumberjacks and cozy up next to a ClassicFlame™ electric fireplace this season.

## ZONE HEATING SAVES

Zone heating is easy with ClassicFlame.

Warm only the room you're in and cut energy bills by about 10% by turning down the thermostat 10-12°.

Gas and wood burning fireplaces actually work opposite of zone heating, creating a draft effect when lit that pulls heat *out of the home*.

## EFFICIENCY

The LED bulbs used to create our realistic flame effects have a normal lifespan up to 100,000 hours and consume far less energy than regular incandescent bulbs.

LED bulbs contain no mercury, thereby helping to reduce greenhouse gas emissions.

Producing approximately 90% less heat than an incandescent bulb, the LED bulb stays cool to the touch.

## AIR QUALITY

No soot or ash is produced by any of our fireplaces; just warm, fresh air.

Allergy and asthma sufferers can warm the air they breathe without worrying about producing hazardous pollutants and irritants.

## EASE OF USE

Our electric fireplaces require no venting or gas lines and feature easy to use controls.

Just plug into any standard 230V outlet and enjoy out-of-the-box heat with simple assembly.
